*Profile*

A 16 year old coding enthusiast who is trying to learn different skills and explore different concepts of Computer Science and Programming

*Skills*
**Web Design**

Skilled in preparing front-end pages and script the framework of a static website.

**Linux Terminals**

Am familiar with linux terminal commands and am comfortable with working with most terminal based OSes.

**Individual Confidence**

Can work on a project individually or with a team with the same efficiency.  
Have experience with solo-handling projects.

*Technical*

HTML

Metasploit

Windows 10

CSS

MS Office

Windows XP

Terminals

Kali

Linux

*Experience*
**Jobbie**  
HTML Designer

2019

A project to create a website similar to that of Fiverr.com which aims at freelancing in various fields. This was an unfinished project started by me.

**School Website**  
Owner

2020

Replicated the framework and some frontend elements of the website of my institute. It was a private project which was never hosted with a domain. The aim was to test how far I could replicate a website created by a professional.

**Competitive Programming**  
2015-2021

Have participated in multiple tech events in different institutes and have gotten positions and ranks of merit in quite a couple of them. The competitions varied from simple HTML scripting to full fledged static website creation.

*Education*

Somerville School, Vasundhara Enclave  
Grade 11th
